INSERT

COMPRESSION

INJECTION

Capabilities

Taro has been producing high volume parts in our Auburn, NY facility for over 30 years. We specialize in insert molding, with injection or compression. We have the skill sets and work force to manufacture inserts, manage proper insert handling, and perform post-mold operations.

Many of our production capabilities are suited for the transportation, automotive, electrical, electronic, consumer, and industrial industries.

Materials

Thermoplastics

- Acrylic (PMMA)
- Styrene (ABS)
- Nylon polyamide (PA)
- Polycarbonate (PC)
- Polyethylene (PE)
- Polyoxymethylene (POM)
- Polypropylene (PP)
- Polystyrene (PS)
- Thermoplastic polyurethane (TPU)

Thermosets

- Bulk Molding Compounds (BMC)
- Polyester
- Alkyd
- Phenolic

Equipment

- 1 Cincinnati 220-ton 14oz injection molder
- 1 Cincinnati 220-ton 20oz injection molder
- 1 Cincinnati 300-ton 29oz injection molder
- 1 New Britain 125-ton Injection shuttle
- 1 Newbury 35-ton injection shuttle press
- 1 Autojector 30-ton injection shuttle press
- 7 75-ton compression presses
- 3 100-ton compression presses
- 3 150-ton compression presses
- 18 175-ton compression presses
- 3 200-ton compression presses
- 3 300-ton compression presses
- 10 Bipel preform pellet presses
- 6 Stamping presses (10-32 ton)
- 3 Sonic welders
- 28 1-ton Denison multi-presses
- 5 Bracker orbital rivet presses
- 4 B&W orbital rivet presses
